COACHES LEADERSHIP-HIGH SCHOOL AND MIDDLE SCHOOL

The function of the coach is to educate students through participation in sports. The primary and basic function must never be disregarded. In teaching a sport the coach must realize that there are certain rules designed to protect the player and provide common standards for determining a winner and loser. Any attempt to beat these rules, to take unfair advantage of an opponent or to teach deliberate unsportsmanlike conduct has no place in athletics.

The coach should set the example for winning without boasting and for losing without bitterness. A coach who conducts himself/herself according to these principals need have no fear of failure, for in the final analysis, the success of a coach can be measured in terms of the respect they have earned from each player and from their opponents.

The major objective of our programs is the development of behavior which is aimed at that which is best for the full development of our athletes. Coaches are to develop good sportsmanship, good athletes, good citizens and the type of behavior which will bring credit to the school, the community and the individual participant.

CODE OF CONDUCT

Activity Participation Eligibility

Participation in school activities is a privilege. School activities provide the benefits of promoting additional interests and abilities in the students during their school years and for their lifetimes. Students who participate in extra-curricular activities serve as ambassadors of the school district throughout the calendar year, whether away from school or at school. Students who wish to have the privilege of participating in extra-curricular activities must conduct themselves in accordance with Board policy and must refrain from activities that are illegal, immoral, or unhealthy. Students who fail to abide by this policy and the administrative regulations supporting it may be subject to disciplinary measures. Students wanting to participate in school activities must meet the requirements set out by the school district for participation in the activity.

Activities Included, But Not Limited To:

Athletics, instrumental and vocal music performances, drama productions, speech contests, National Honor Society, all co-curricular clubs, all honorary and elected offices (i.e., Homecoming King/Queen/court, class officer, grand march, student government officer, or representative), state contests, and performances for cheerleading, dance team, FFA events, and mock trial. These rules also apply to those extra-curricular parties, dances, and trips sponsored by the school outside of specific classroom activities.

1. This policy applies to Grades 6 through 12 and includes all activities.
2. Penalties will apply to all students for violations that occur 365 days a year.
3. Report of Conduct.

Any student observed breaking the Code of Conduct in the following formats, which may include but are not limited to, text messages, websites, electronic media, and photographs may be observed by the following people:

1. a school employee;
2. a school board member;
3. a law enforcement official; or
4. any student who admits at a judicial or administrative proceeding.

An infraction occurs when a student has been found by some evidence to have violated any of the following, regardless whether the student was cited, arrested, convicted, or adjudicated for the act(s):

1. being in a vehicle or attendance at a function or party where the student knows or has reason to know that alcohol or other drugs are being consumed illegally by minors and failing to leave immediately despite having a reasonable opportunity to do so;
2. possessed alcoholic beverages with knowledge, intent, or control thereof;
3. consumed alcoholic beverages;
4. possessed controlled substances as they are defined by the Iowa Code, with or without legal prescription, and with knowledge, intent, or control thereof;
5. used controlled substances, as they are defined by the Iowa Code and without a legal prescription;
6. used or possessed tobacco in any form, including e-cigarettes and vaporizers with or without nicotine as they are defined by the Iowa Code;
7. committed theft, vandalism, or other serious offenses, including those which would violate the Iowa Code (except minor traffic violations, curfews), as to make the student unworthy to represent the ideals and standards of the Tripoli Community Schools;
8. exceedingly inappropriate or offensive conduct that may include, but not limited to, assaulting staff or students, gross insubordination, serious hazing or harassment of others (to be determined by administration).

If a student transfers in from another Iowa school or school district and the student had not yet completed a period of ineligibility for a violation of a Good Conduct Rule in the previous school, the student shall be ineligible if the administration determines that there is general knowledge in our school district of the fact of the student's misconduct or violation in the previous district.

Any student found in violation of the Good Conduct Policy shall be ineligible to represent the school in any performances, scheduled contest, program or trip (unless deemed academically necessary by instructor with administrator's approval) but will be permitted to practice until reinstated by the administration and sponsoring teacher/coach.

For eligibility purposes, the student has to start the beginning of the season and finish the entire season to count off ineligibility time relative to this section.

This policy applies for students in Grades 6-12 and consequences are cumulative. An example of this would be if a student violates in April of his/her freshman year (1st offense) and then violates the Good Conduct Policy in October of his/her junior year. The second offense would apply. Consequences for Grades 6-8 will be removed from the student's record when they enroll in Grade 9. Summer offenses, preceding middle school or high school, will count toward the grade the student is going into. Each student will start with a new probation period in the middle school (Grades 6-8) and the high school (Grades 9-12). However, if the violation occurs during the year and is not fully served, the penalty will carry into the next school year.

1. If the student is not currently participating in an activity within any category, the student will be ineligible in the next related activity in which he/she participates. Any student not involved for twelve months in a category would be eligible.
2. If a student enters an activity in which he/she has not previously participated and begins and/or continues a period of ineligibility, the student must participate at a level expected of all other participants.
3. If the student does not faithfully participate at a level deemed appropriate by the coach/sponsor, the coach/sponsor shall have the authority to suspend the student from the activity involved. If a student does not satisfactorily complete the activity, he/she will be deemed to be ineligible with the same penalty applied to the next activity in which the student chooses to participate.

Note: Consequences may be modified at the discretion of the Administration, depending upon each circumstance.

First Offense

Penalties shall be all of the following:

1. Athletics - Ineligibility for half of the season from intra-and/or inter-school performances or competition. The student will be ineligible for the time period covering one-half (1/2) of the playing dates at the time of the declaration of ineligibility (See chart). If the student is involved in other extra-curricular or non-graded activities during the period of time, the student will also lose those events. (If Category 1 – Athletics does not apply, then go to Category 2 – Instrumental, Vocal Music, and Drama.)
2. Instrumental, Vocal Music and Drama - Ineligibility will be four weeks, which must include one performance.
